

Quality Coordinator for the Femern Project at Sund & Bælt (Maternity Cover)

Are you interested in major infrastructure projects?

Would you like to contribute to the delivery of the Fehmarnbelt Fixed Link and become part of an international mega-project? As a Quality Coordinator, you will play a key role in ensuring compliance with quality requirements across one of Europe's largest infrastructure projects. You will join a highly skilled and collaborative environment where safety, engineering excellence, and teamwork are at the core of everything we do. This is a unique opportunity to contribute to a landmark project while developing both professionally and personally.

The Position

You will become part of the Quality team at Sund & Bælt, where we support the entire organization, including our major construction projects. In this role, you will be assigned to a team within the Femern project, supporting contracts on quality-related matters throughout project phases such as design and execution. You will collaborate closely with internal stakeholders, contractors, and suppliers to ensure compliance with established quality standards and processes.

The position is based at our office in Copenhagen, with the regular working days at our owners office in Rødbyhavn.

Key Responsibilities

As Quality Coordinator, your primary responsibilities will include:

- Leading and conducting reviews of contractors' management plans and quality-related documentation.
- Coordinating participation in contractors' audits and supporting the planning and execution of supplier audits.
- Monitoring and following up on contractors' non-conformities (NCRs).
- Leading quality management meetings with contractors.
- Assisting with internal quality reporting and documentation.
- Ensuring internal coordination and compliance with the Quality Management System.
- Supporting the preparation and continuous improvement of internal procedures.

Your Background

We imagine that you possess several, or all, of the following qualifications:

- A degree in Civil Engineering or a similar technical discipline.
- At least five years of experience from construction or infrastructure projects, including one to two years working with quality management.
- Experience with quality processes, Quality Management Systems, and audit processes.
- Strong written and spoken English skills.
- Excellent communication skills and the ability to navigate effectively in a complex matrix organization.

You as a Person

You work independently and approach tasks in a structured, analytical, and detail-oriented manner. You are open, collaborative, and relationship-oriented, with a positive and trustworthy attitude. In addition, you build strong partnerships across the organization and thrive in environments with a steep learning curve and varying stakeholder interests.

What Do We Offer?

A unique, exciting, and challenging position where your work will make a meaningful difference for society and infrastructure in Denmark. You will join a dynamic organization with excellent opportunities for both professional and personal development while building a broad network across the transport infrastructure sector.

As an employee at Sund & Bælt, you will benefit from:

- Health and dental insurance.
- A competitive salary package based on your qualifications and experience.
- An attractive pension scheme.

Are You Interested?

We aim to be an inclusive workplace with room for diversity. We therefore encourage everyone to apply regardless of gender, age, ethnicity, religion, sexuality, or disability. You can submit your CV by the application deadline of **21 September 2026** by following the link below.

As Sund & Bælt manages critical infrastructure, employment is subject to successful security clearance.

You are welcome to contact **Quality Manager, Mette Fanefjord**, on **+45 51 31 69 91** if you have any further questions.

You can find more information about Sund & Bælt on our website **www.sundogbaelt.dk**.

We look forward to hearing from you.
