

# Azure Solutions Principal for our Digital Division

Do you dream of working with cutting-edge technology and playing a central role in the development of our Azure platform? Are you curious about new technology, do you thrive in interdisciplinary collaborations, and can you communicate technical solutions to various stakeholders?

At the Digital division in Sund & Bælt, you will have the opportunity to work on ensuring a stable, secure, and scalable cloud infrastructure that makes a difference for both the company and society. We are looking for an Azure Administrator/Specialist to drive our cloud transformation and work on optimization, automation, security, and governance in close collaboration with a dedicated team.

## About the position

As part of our **Infrastructure & Cloud** department, you will share responsibility for the operation and further development of our Azure platform. You will collaborate with colleagues from IT operations, development, and security as well as external stakeholders to ensure technical solutions that support the business. The department is characterized by high expertise, innovation, and collaboration.

## Your responsibilities

- Operation, optimization, and further development of the Azure platform
- Automating processes with Infrastructure as Code (e.g., Terraform, Bicep, or ARM Templates)
- Optimization of performance and costs
- Implementation of Azure security tools such as Conditional Access and Defender
- Participation in the cloud journey with cutting-edge technologies and innovative solutions

## Your background

We expect you to have solid experience in the operation and administration of Microsoft Azure, including areas such as **resource management, network setup, security configuration, and cost optimization**. You should have worked with Infrastructure as Code and Azure security tools and be familiar with DevOps principles and CI/CD pipelines (e.g., Azure DevOps or GitHub Actions). Experience with SQL and database administration is an advantage, and experience with cloud transformations is highly valued.

## About you

You are structured and analytical, thrive in interdisciplinary collaborations, and can communicate technical solutions to various stakeholders. You are proactive, solution-oriented, and curious about new technology. Flexibility and the ability to adapt to new challenges are essential.

## What we offer

We offer an exciting position with the latest cloud technology, flexible working conditions, and attractive employee benefits such as professional development, a health plan, and a pension scheme. You will become part of a professional and dedicated team where knowledge sharing and collaboration are a priority.

## Additional Information

You are welcome to contact us at **+45 30179264** if you have further questions.

It is a requirement that you can obtain a security clearance in order to carry out the responsibilities of the position.

We aim to be an inclusive workplace that embraces diversity. We therefore encourage everyone to apply regardless of gender, age, ethnicity, religion, sexuality, or disability.

You can find more information about Sund & Bælt on our website [www.sundogbaelt.dk](http://www.sundogbaelt.dk).

## Does this sound like something for you?

Submit your application as soon as possible and no later than 30 September 2025.

We will conduct interviews on an ongoing basis and hire when we have found the right candidate.

You can send your CV by following the link below.

We look forward to hearing from you.
